30 January 1959

MEMORANDUM FOR: Director of Logistics

SUBJECT: Overtime for Modification of Control Center

1. Project CHALICE has been committed to perform a classified mission over an extended period of time commencing 7 February 1959. A requirement exists for a twenty-four hour operation through utilization of a maximum effort in personnel and equipment. In order to efficiently accomplish the assigned task, it is essential that required ventilation in the way of an already programmed and approved air conditioning unit plus operations center alterations be accomplished prior to the date indicated above.

2. In view of the foregoing, and since this may be accomplished by the time required on an overtime basis, approval is granted for one hundred twenty-eight manhours during the weekend, 31 January to 1 February 1959 to complete necessary alterations.

3. Your calculations as to the funding required to cover this authorization should be furnished at the earliest practicable date in order that funds may be made available to cover costs involved.

4. Based on our discussion, it is expected that this authorization will permit relocation of partitions and the installation of air conditioning provided for in memorandum No. DPD-5819, dated 24 November 1958 (work order #52-1822), prior to 7 February 1959. The alterations requested are stipulated in memorandum DPD-0780-57, dated 29 January 1959.
